ENSURING MISSION READINESS

**ADVANCED TECHNOLOGY
PLATFORMS TO MAXIMISE
OPERATIONAL EFFECTIVENESS.**

Our Platforms & Systems cluster is home to pioneering companies focusing on the design, manufacture, assembly, upgrade, modification and system integration of advanced platforms in the air, on land and at sea.

TODAY'S READINESS. TOMORROW'S OPERATIONS.

BUILDING AIR, LAND AND SEA RESILIENCE.

In today's fast-moving and unpredictable theatres of operation, absolute mission readiness is an essential component of success. At EDGE, our specialist Platforms & Systems cluster deploys advanced technologies across the full life-cycle of air, land and sea vehicles and systems, helping ensure exceptional turnaround times and enhanced levels of system availability.

Backed by world class talent and facilities, we combine decades of delivery with ongoing R&D and expertise in smart, connected technologies, to manufacture, supply and service platforms and systems that deliver exceptional performance, safety, reliability and effectiveness.

Today, our expanding portfolio includes support autonomous vehicles, wheeled and tracked armoured and non-armoured vehicles, ships, and launch systems.

EDGE

ABOUT EDGE

We live in an accelerating world. Characterised by uncharted frontiers, the future is empowered by advanced technology that is galvanising a new breed of players. At the edge of these frontiers exist no limits – where boundless opportunities await.

Transforming how we live, and ensuring a more secure future, is what we do. We are EDGE; and our mission is simple: to bring innovative technologies and services to market with greater speed and efficiency.

We will not only revolutionise the defence industry, but we will change its fundamentals. We are the vanguard of the next-generation, of a reimagined sector. We prioritise technology in a non-binary world and seek universal solutions. We work with everyone: big or small, start-up or established, local or global.

We are EDGE. We enable a secure future.

SYSTEM INTEGRATION

As part of EDGE, our platforms & systems' companies are committed to harnessing and driving progress in advanced technologies. We are working to leverage technologies such as autonomous vehicles, cyber physical systems, robotics and smart materials, advanced propulsion systems and artificial intelligence.

TALENT.
TECHNOLOGY.
TOGETHER.

UNRIVALLED TECH, ENGINEERING
AND EXPERTISE.

Working round-the-clock, we are on call to support your ability to respond at short notice to an emerging world of threats, with an established track record of delivery enabled by cutting-edge resources.

OUR MARITIME RESOURCES

Our commitment to naval engineering excellence is matched by the technical quality of our offering. With a main shipyard at Mussafah and a dedicated floating dock at Mina Zayed, we offer a 330,000m² drydock, in-house naval workshops and the region's most extensive maritime OEM relationships.

OUR LAND RESOURCES

EDGE Group's land MRO facilities are designed to deliver scalable, flexible solutions to meet rapidly evolving force requirements, with dedicated workshops for heavy vehicles, wheeled and light vehicles, armaments, electronics, engineering, fabrication and more.

**R E D U C I N G
D O W N T I M E .
S H A R P E N I N G
R E S P O N S E .**

Our Platforms & Systems cluster features six pioneering companies focused on building a more secure future. Together, they offer everything from the latest amphibious fighting vehicles, to extensive maritime fabrication and repair at one of the region's best equipped dry docks – with ongoing investment and innovation to follow in the years ahead.

OUR

CLUSTER

COMPANIES

LAND

NIMR

NIMR manufactures operationally-proven, high performance light and medium-weight wheeled military vehicles designed for harsh desert climates.

nimr.ae

AL TAIF

As a specialist in Maintenance, Repair and Overhaul (MRO), Al Taif provides comprehensive lifecycle support for land platforms, heavy utility vehicles and ground support equipment.

altaif.ae

AIR

EARTH

EARTH offers state-of-the-art R&D, engineering, technology integration, manufacturing, maintenance and project management services.

earth.ae

ADASI

Pioneering autonomous systems on land, sea and in the air, ADASI develops today's advanced unmanned systems and tomorrow's AI-enabled drones.

adasi.ae

LAND AND SEA

AL JASOOR

Al Jasoor manufactures next generation fighting vehicles, including the new Rabdan 8x8 Armoured Fighting Vehicle, which offers unique operational advantages on land and in the water.

aljasoor.ae

SEA

ADSB

ADSB is the regional leader in the new build, repair, maintenance, refit and conversion of naval and commercial vessels, helping keep the GCC's naval fleet in prime operational condition.

THE PATHWAY
TO A MORE
SECURE FUTURE

At EDGE, we are challenging the status quo. Reimagining our sector. Moving with speed and inventing with freedom. Driving new efficiencies. And enabling a secure future.

As we begin our new journey as a conglomerate grounded in defence and security, our goal is much wider and our horizon much broader – where a fusion of advanced technology, pioneering innovation and collaborative partnerships will serve humanity for good.
