

## Company Profile

### About HORIZON

#### *High Flying. Skill Building.*

HORIZON is the Middle East's largest independent helicopter flight training academy. For over 17 years, the academy has trained and upskilled rotary wing pilots locally and internationally, playing a fundamental role in the development of aviation capability globally, while setting the benchmark for quality across the MENA region.

Operating out of its base in Al Ain, HORIZON offers international-standard and bespoke rotary-wing training to a wide range of leading civil, commercial, and military operators from across the South Asia, Middle East and North Africa (SAMENA) region. In addition to specialised Night Vision Goggle (NVG), with state-of-the-art facilities and a multinational team of experienced instructors, HORIZON's basic and advanced training programmes are taught and delivered to the highest standards of safety, quality and efficiency, at some of the most competitive rates in the industry.

As part of the Mission Support Cluster within EDGE, HORIZON constantly seeks new and innovative training technologies and world-class partnerships to build pilot skills and enhance customers' operational flexibility. Ranked amongst the top 10 of flight training providers globally, the company aims to consolidate its position as the leading flight training organisation in the Middle East, to support the growth of the regional aviation industry and to establish an international footprint in rotary-wing flight training. HORIZON's mission is to deliver innovative, best-in-class training solutions and continually expand and customise its portfolio.

The academy advanced and industry-standard programmes train over 100 rotary wing pilots every year across a comprehensive selection of international-standard flight training courses, HORIZON is the UAE General Civil Aviation Authority (GCAA) approved helicopter flight training provider. Enabling pilots to earn nationally and internationally-recognised qualifications, HORIZON helps add to the UAE's talent pool and boost the maturity of the GCC region's aviation industry.

As part of its roster, HORIZON conducts helicopter pilot training for private and commercial pilot licensing, flight instructor courses (FI), and qualified military pilot bridge courses (QMP) among many others. In addition to single and twin-engine helicopter training, conducted on the latest Bell fleet, HORIZON also provides a holistic array of in-depth
